Dun & Co.'s weekly review of trade says: Co. Is weekly review of trade says;
Once more is must be said that trade indications are entirely favorable. Even the shrinkage in exports has ceased, an increase of \$1,000,000 appearing here last week, while imports continue surprisingly large, and foreign exchange declines. Government corp reports for October 1 were on the whole much more avorable than was expected and the markets fluctosed a public belief that the facts are more favorable than the government estimates. Treeds throughout the country is commented.

WHITE PLAINS, N. Y., Oct. 15,-James G. Blaine has spoken; the mag-netic man of Maine has thrown the nette man of Maine has thrown the weight of his utterances into the campaign; he has silenced the democratic claim that be was disgruntled by earnestly and with much of his old time vigor proclaiming the republican cause and advocating the election of Harrison and Ried, His speech was delivered under unique circumstances. There were no cut and dried exceptionally good. Boston reports active dry goods trade; bury shoc factories; steady bustiness in leather and in lumber, and very good trade in furniture. At Philadelphia the iron market decidedly improves. Western orders for coal cannot be filled, because the roads are blocked; orders for spring trads are reported in dry goods, while the trade in jewels is fair, and paints and cils are active. At Baitimore the infrequency of southern failures is gratifying. Collections are Emore satisfactory, and trade in some lines shows a meterial increase. Pittsburgh reports a stiffer market for big iron and a good demand for manutactured products with improving damand in window glass. Trade is boots and shoes is fair at Omelanali, asies somewhat conceding leat years. At Cleveland relied from is in large demand though big iron is lower than ever in price, and stade in nearly all lines is good. The boot and shoe trade at Indianapolis reports increase in receipts, those of wheat, oats and barley being decibelisaty tear's, while in wood a gain of 80 per cent. is shown; in cattle and hoge 20 per cent. and some increase in facu, drussed becf, butter and cheese. ton and wooles mills are fully employed and many of them cannot fill their orders, though ranning their machinery night and day. Bales of wool, at the three chief, markets, have been \$71,000,000 to the same date last year. The market for dry-goods continues encouraging, agents having started virgorous continues encouraging, agents having started virgorous amples for men's goods being urgent. Trade in blankets was exceptionally large in September and the lower grades cannot be supplied fast enough. Strong beying is seen in cottons and some markets are largely unsold. The book and show manufacture is equally busy and aftiments from Boston, according to the Siboc and Leather Beporter, are 85,000 cases for the week against 64.000 last week. Stocks have been irronger with an average advance of about 51 per share, but the chief activity has been in industrial and New England stocks. The improved crop prospects, and the enormous movement, will about justiff, encouragement, and buyers are thinking much of next year's business, resulting from the World's fair. The money market is fairly active at about 5 per cent, and the treasury, while holding \$8,000,000 more gold, and \$1,000,000 more silver, has added \$8,000,000 to the circulation.

Li Hung Chang, Premier of China, Going Mad-The Russo-Chiness Telegraph Convention.

SAN FRANCISCO, Oct. 15.—The steame Oseania arrived from Hong-Kong and Yokohama abortly before noon yester-Yokohams shortly before non yester-day, bringing news that cholera is raging to an alarming extent at Fanchew. China. Hundreds of people are dying daily. Haters of foreigners have spread the malicious report that some of the Chinese are traveling around in the pay of Europeans, poisoning all the wells, thereby causing the great number of deaths. Consequently all strangers are imprisoned and many have had their heads cut off and their entrails and hearts thrown into the river.

Gitu, Japan, the scene of the great earthquake last Octobes, had another seismic visitation on September 14, which gave the inhabitants a great scare. It was not, however, attended with loss of life, and other than the oracking of the walls and shaking of furniture and crockery, no damage was

phaces, wells became muduy and water spurted out in some instances, while in others the wells almost dried up. Announcement is made that Li Hung Chang, prime minister of China and the most important man in the king-dom after Emperor Kewegsi, is going mad. As is the custom in China all audiences he grants are given in pub-lic. All officers of the court and all the servants are in attendance. For the servants are in attendance. For the head of the government to slap the face of an official in the presence of an inferior is a most deadly insult and the man who is alapsed loses caste forever. Yet this is what Chang is said to be do-ing daily. Almost every one to whom he grants an audience is kicked and cuffied before the servants and retires in discresse.

the attendants from falling on the vicercy.

The telegraph convention between Russia and China has been signed by the Russian minister at Peking and by Shang Taoti, chief director of telegraphs, and is now only awaiting the approval of Li Hung Shang and T. WASHINGTON, Oct. 15.—Private Secretary Haiford was shown the dispatch from Attieboro, Mass., in reference to the controversy between Representative Morris and Mrs. Gongar, in which his (Halford's) name is used. He said a cursory reading of the telegram would indicate that his name had been used by Mr. Morse is authority for the statement that \$1,500 had been paid to the prohibitionists by democrate. His connection with the matter related only to the assertion that Mrs. Gougar had supported the democratic telest in Indians. Representative Morse had saked him if such was the case and he had referred the inquiry to the secretary of the republican central committee of Indians. That gentleman had responded that the statement was correct and his reply had been forwarded by him (Halford) to Mr. Morse.

WHEN Democrats talk about Demo erate they ought to know what they are talking about. Here is the way Mr. Charles A. Dans, a Democrat, and editor of the New York Sun, a Democratic newspaper, talks about the Demogration

"It remains true, everything being considered, that the records of the Dame cratic house, in the matter of appropriations, is a betrayal of the voters who elected it on the issue of economy, a repudiation of its own professions and promises, and a shame and diagrace to the party."

THE editor of the Durham, N. C., Globe

says:

"But between Harrison and Cleveland—first, last and all—the time—I am for the brave Buffalo man, who slapped the dirty pensioners, who, for the part, are beggars, in the face. \* \* "Increwere dirty and longy reacals who came down into this country and who abused women; who burned homes; who stole all that was in sight, and to day, without as honorable soar, are bleeding this country, and I am helping to pay for it. from Europe we cannot sell to them, for

they refused to buy from us during that

breadstuff and in 1851 they had so far discriminated against us that they only

bought \$21,000,000 of breadstuff. As

as our manufactures went down, we

bought more and more each year from

Europe. We were forced by free trade to buy from them, but the same policy did not force them to buy from ne.

That theory has also been exploded by the result of protection. We have re

A reported outbreak of cholera at Helmetta, N.J., created much excitement in that vicinity. Investigation showed that the disease was not cholera, but a vicient dysentery, which is almost as severe and dangerous as cholera. Mr. Walter Willard, a prominent merchant of Jamesburg, two miles from Helmetta, says: "Chamberlain's Colic, Oholera and Diarbon remay has given great astisfaction." they refused to buy from us during that period whenever it suited them to do so. We surrendered, under that ideality of free trade, our market to them and they refused to allow us to sell to them. Thus in 1847 they bought \$68,000,000 worth of the service of the period to allow us to sell to them. Thus in 1847 they bought \$68,000,000 worth of the service of the ser

Hon. Richard Yates, of Jacksonville, nominee for congressman-at-large, and an of the great war governor, was the first speaker. He was given a flattering an eloquent, smooth and convincing speech, first speaker. He was given a flattering an eloquent, smooth and convincing speech, full of patriotism and logic, which won full of patriotism and logic, which won full of patriotism and logic, which won said in substance: I am sure Mr. Mason ean never be as sorry that he did not get here as I am glad that I am here to address this magnificant audience. I wish Mr. Mason well. He is a july good fellow, cloquent, witty and wiss, and it is something of an embarrassment to me to appear before you when you expected to hear him. Mason is big enough physically to make two such men as I am, and it oratorically, rhetorically and metaphorically he is four or five times as big as any one of the present Democratic mem for the gorious principles of the grand old Republican party of the United States. It is 40 years old and has ontlived and outgrown all others, and it is the best party for all the people. (Just) then the rain came down in torrents. \* You will remember that Palmer went up and down the state rearing about the 58-cent tax rate, but he suid nothing, about the \$1.10 rate when he was governor. Now Gov. Fifer has reduced the rate to 38 cents, and he promises to bring it down to 25 cents.

Do you want any more Democratic economy? With 140 majority in the house the Democrats failed to repeal the McKinley bill. In six months time they did pass six bills, attacking small items. At that rate it would take the Democrats 299 years to wipe out the 2,600 items in the McKinley bill. And still the Democrats talk about economy. Ten years ago

nois who went to the front for the Union and liberty end the sternal right; he also advocated an honest ballot and fair count in every part of the country, and for a time in an able manner he spoke on the tariff question, emphasizing the point that the Democratic party had always declared everything the Republicans had done as unconstitutional in the face of the designing of the highest court in the and especially marked for the old-time of one as unconstitutional in the face of the decisions of the highest court in the land which had said that all encotments of the Hepublicans and how anxious they are to get to the polls to express their Yates spoke of Illinois in glowing terms and are applied to the polls to express their Yates spoke of Illinois in glowing terms.

After the speaking commenced the rain came down in torrents, causing some alarm and confusion at the reer, but when it was realized that the tent would turn water the people became quiet and the exercises continued. It was confessedly one of the largest and beet local meetings the Republicans have had during the campaign.

THE MEMPING.

The exercises opened with a patriotic medicy by Goodman's Band, followed by the song, "Listen to My. Tale of Woe" by the Glee Club which never sauge better—and won heastly encores. The other selections were "Grover's Picture Turned to the Wall," and "Illinois."

Captain Lytle, county chairman, announced that he had selected W. F. Calboun to preside at the meeting and that gentleman in fitting terms presented the talented speakers, and read a telegram stating why Hon. W. E. Mason could not be present. He had failed to make railway connections.

THE GORFELL.

Hon. Richard Yates, of Jacksonville, nominee for congressman-at-large, and son of the great war governor, was the first speaker. He was given a fattering reception. He gave the audience an eloquent, smooth and convincing speech full of patriotism and logic, which won round after round of applause. Mr. Yates spoke for over an hour, and said in substance: I am sure Mr. Mason can never be as sorry that he did not get have as I am gled that I am here to at the committee of the grand Lodge of Manda he were to night to mingle with the proper the grand betar ect in the grand betar ect in the grand state ect in the grand state extent in the state institutions are political mechines, while at Kankace, Elgin, Jacksonville and Anna not an employe has ever been he many and the work of the grand that gentleman in fitting terms presented the talented speakers, and read a telegram stating why Hon. WATTERSON ACCEPTS The Third and Last Call for a Southan

CHICAGO. Oct. 14.—Henry Watterson

telegraphed to Mr. Watterson this norning asking him to take this place

morning asking him to take this place of honor upon the programme.

When Mr. Breckinridge resigned on account of the criticisms of Chicago papers, an effort was made to get Sen-

ator John W. Daniels, of Virginia, to take his place. Senator Daniel tele-graphed his refusal, and now the honor

once more goes begging, this time to the door of the democratic editor. If he refuses it is probable that the num-

other living issues, Mr. Blaine concluded his remarks as follows:

I have a word to say about the Irish vets. I see it is stated that the democrate boasts of having the mass of the Irish in their ranks this year. It is one of the mysterious of politics that a question which interests England so exprenely; which is canvassed almost as much is London, as it is in New York; should have the Irieh vote on the side of Great Heitina. If the Irish vote were solidly for protection they could defy all the machinations of the domocratic party for free trade and throw their influence on the side of the bone market of America against this foreign market of England. I know this appeal has been frequently made to the Irish voters, has been frequently made to the Irish voters, has been frequently made to the Irish voters, have the with emphasis now for I am unwilling to believe that with light before them they will deliberately be on the side of their former opprossors. I think my good friend Egan, the brilliant and successful missier to Chill, when I feel especially glad to meet at Mr. Bled's table this countrymen—his countrymen in two senses—not to said the democratic party in lowering the shandard of American wages by their p otential votes and their potential numbers.

The Week's Business and the Outlook Reported by B. G. Dun & Co. New York, Oct. 15.—R. G. Dun & Co.'s weekly review of trade says:

18.7

Co.'s weekly review of trade says:
Once more it must be said that trade indications are entirely favorable. Even the shrinkage in exports has ceased, an increase of \$1,-500,000 appearing here last week, while imports continue surprisingly large, and foreign exchange declines. Government crep reports for Ootober I were on the whole much more favorable than was expected and the markets disclosed a public belief that the facts are more favorable than the government estimates. Trade throughout the country is somewhat larger than a year ago and in all the great branches of manufacturing there is extraordiary activity. Morey iskin greator demand at almost all commercial centers, but there is nowhere a stringency, the supply being ample for logitimate business, and collections, as a rule ate exceptionally good. Boston reports active dry goods trade; busy shoe factories; steady business in leather and in lumber, and very good trade in turniture. At Philadelphia the iron market decidedly improves. Western orders for coal cannot be filled, because the roade are blocked; orders for spring trade are reported for road cannot be filled, because the roade are blocked; orders for spring trade are reported for road cannot be filled, because the roade are blocked; orders for spring trade are reported for road cannot be filled, because the roade are blocked; orders for spring trade are reported for road cannot be filled, because the roade are blocked; orders for spring trade are reported for reade and the goods while the trade in luwels is fair. trade in furniture. At Philadelphis the from market decidedly improves. Western orders for coal cannot be filled, because the roads are blocked; orders for spring trade are reported in dry goods, while the trade in juvels is fair, and paints and oils are active. At Saltimore the infrequency of southern failures is gratifying. Collections are more satisface they, and trade in some lines shows a material increase. Pittsburgh reports a either market for pig from and a good demand for manufactured products with improving demand in window glass. Trade in boots and shoes is fair at Oincinnati, asies somewhat exceeding last years. At Glovekand rolled from is in large demand though pig from is lower than ever in price, and trade in nearly all lines is good. The boot and shoe trade at lindianapolis reports increased sales. Chicago again reports enormous increase in receipts, those of wheat, cats and barley being doublelast years, while in wool a gain of 10 per cent, as shown; in exits and boogs 20 per cent, and some increases in flow, dressed beef, butter and cheese. Business was never more propagarous. Trade is remarkably strong at St. Louis, the crops proving larger than was anticipated; business is larger than last year at Kansas Oity, receipts of products being liberal and very good at Denvier. At Minneapolis nearly all branches show an increase over last year, and the output of flour, 20,000 barrels, is the largest ever known in a week. At St. Paul an increased arcsage. At Omaha trade in groceries and hardware is very busy. Basiness at Nahwille is improving, but at Little Rook is still dull, though in dry goods better. At New Orleans business is sevire with brighter prospection and darware severy busy. Basiness at Nahwille is improving and a general advance, on the makes at difference of about \$4,600,500 hr value is exporte for the menth. Throughout Japan. San Francisco, Oct. 15.—The steame

tom and woolen mills are fully employed and many of them cannot fill their orders, though ramning their machinery night and day. Sales of wool, at the three chief markets, have been \$17,00,000 pounds, against 184,000,000 to the ame date last year. The market for drygoods continues encouraging, agents having stated vigorously in the spring trade and the domand of spring samples for men's goods being urgent. Trade in blankels was exceptionally large in Esptember and the lower grades cannot be supplied fast enough. Strong keying is seen in cottens and some markets are largely used. The boot and salve smarter facture is equally busy and ahipments from Boston, according to the Shoe and Leather Reporter, are 83,000 cases for the week against 64,000 last week. Stooks have been stronger with an average advance of about \$1 per share, but the chief activity has been in industrial and New England stocks. The improved crop prospects, and the enormous movement, will about justify emcouragement, and buyers are thinking much of next year? The money market is fairly active at about \$2,000,000 to the circulation.

Haters of foreigners have apread the malicious report that some of the Chinese are traveling around in the pay of Europeans, poisoning all the wells, thereby causing the great number of deaths. Consequently all strangers are imprisoned and many have had their heads cut off and their entrails and hearts thrown into the river.

Glfu, Japan, the scene of the great earthquake last October, had another seismic visitation on September 1s, which gave the inhabitants a great soare. It was not, however, attended with loss of life, and other than the oracking of the walls and shaking of furniture and crockery, no damage was done. The ground cracked in many places, wells became muddy and water spurted out in some instances, while in others the wells almost dried up.

Announcement is made that Li Hung Chang, prime minister of China and the most important man in the king-dom after Emperor Kewegel, is going mad. As is the custom in China all audiences he grants are given in public. All officers of the court and all the well almost dried up.

Population

BIRMINGHAM, Ala., Oct., 16.—A: special from Monroeville, near where the four negroes were lynched Thursday and their bodies torn to pieces by the enranged populace and then burned for the murder of Richard Johnson and his daughter, says that the wildest excite-ment prevails. Hundreds of white peo-ple are arming themselves and threaten to exterminate the negro population. It is probable that the five other negross in charge for alleged complicity in the Johnson murder will be lynched soon on the scene of the trouble. The place is a long distance from a station and news comes slowly.

The Republican party is the only party that has shown ability to conduct this overnment in the interests of our own eople and put the government upon an independent and respectable basis. It followed the Whig party, accepting its theory of protection to American indus-

Mrs. Cadwallades Gulle, the American lady soulptor, recently at the Schloss Homburg, submitted some of her work to the Empress Frederick and to the Prince of Wales, by whom it was tries, discarding its notions about the slavery question. The Republican party has never been troubled with the barren theory of a taruff for revenue only. It has always believed those who profess to accept that theory are either dishonest or misled by those who are dishonest. The tariff-for-revenue-only period exploded the theory that if we do not buy from Hurope we cannot sell to them, for they refused to buy from us during that period whenever it suited them to do so. We surreddeed, under that ideality of free trade, our market to them and they refused to allow me to sell to them. Then or misled by those who are dishonest refused to allow us to sell to them. Thus in 1847 they bought \$68,000,000 worth of breadstuff and in 1851 they had so far discriminated against us that they only

Mas. Dona Whereare Smare is doing decorative work on the ceiling and frieze of the Woman's building at the Chicogo World's fair, without charge, which would have cost \$3,000 if done by bought \$21,000,000 of breadstuff. As se our manufactures went down, we bought more and more each year from Bince its first introduction, Electric Bitters has gained rapidly in popular. Invor, until now it is clearly in the lead sprong pure medicinal tonics and alteratives—containing nothing which permits the use as a beverage or intoxicant, it is recognized as the best and purest medicine for all ailments of Stomach, Liver or Kidneya.—It will oure that headche, Indigestion, Constipation, and drive Maliris from the system. Battsfaction guaranteed with each bottle or the money Europe. We were forced by free trade to buy from them, but the same polic did not force them to buy from us.

That theory has also been exploded by fused to buy from them except under policy which begets competition at home with Europe; but, in spite of this, Eu rope has bought from us more freely than she ever did when she dictated her own theory. As an example, under the opera tion of the McKinley tariff law our exports have increased to a figure, \$132,-000,000 greater than was ever resched be fore, while the amount of dutiable exports have been decreased by some \$80, 000,000. and an increase in imports of ode,000, and an increase in imports of goods admitted free. This wonderful increase of exports shows the folly of the cry, "Ucless we buy from Europe we cannot sell to them," and if the Bepublicane are continued in power this state of things, so favorable, will be continued; and if the Demograte succeed and change the tariff the business of the country will be raised, and our foreign commerce wil again be deranged and re-cetablished slong the old lines of the free trade era which was so disastrons to the busine

interests of the country. Some Old Onts.

The sand-letters have getten out very creditable illustrated report of the Republican meeting, that is to say any sort of burlesque coming from that source upon a Republican gathering is a com pliment to the Republican party. Take or instance the tie-walking scene, enti-

tled "Mason could not get there." This is an old cut originally made to illustrate a bold bad Democrat in action during the war, who thought he had business in Canada, where it was supposed to be eafer than at home, as a Knight of the Golden Circle, to declare the auconstala tionslity of the draft. The fellow to the right near the telegraph pole is "Old ady," who laughs to see the dough face himself "Going up yonder to Lowe Cans-dy." The out entitled "Dick Remembers his Pa" is also from the vintage

of war times. Originally it was made to illustrate Dick Yates, the war governor of Illinois spanking the treasonable Den coratic legislature of the State of Illinoi in 1963 and sending it home by a procla mation prorogning it for passing treason able resolutions in its effort to oripple the government. The same cut was also used to represent Farmer Issue Funk the father of Ben Funk, who as a senston in the same legislature, when he could stand the tressonable action of some Dem ocrats no longer, took them up an spanked them in a speech which made them orioge and whine like whipped spanish. The constant of that speed

But some of these traitors here who are working night and day to get their miserable little bills and claims through the ligitlature to make money out of the people, are talking of high taxes! They are hypocrite as well as traitors. I heard some or them talking about high taxes in this way who do not pay five dollars to support the government. I denounce them as hypocrites and traitors. The reason that they pretend to be afraid, of high taxes is, that they do not want to vote money for the relief of soldiers. They want to aid saccessionits to conquer our boys in the field!
